

FREQUENTLY ASKED QUESTIONS

WHAT ARE THE PRODUCTS OF ^{GT}TURFWORKS?

^{GT}TURFWORKS products are artificial grass which are extremely durable, weather resistant, UV protected and color safe. ^{GT}TURFWORKS offers artificial grass for residential application and artificial turf for commercial applications. All of our artificial grass products are environmentally friendly and looks, and feels like real grass. There has been extensive research and development to get these advanced fibers to the point they are today.

WHAT IS ^{GT}TURFWORKS PRODUCTS MADE OF?

Our artificial grass is carefully constructed using a revolutionary monofilament and dual blade polyethylene and polypropylene fiber technology replicates individual grass blades with unparalleled realism. Each product we provide is UV stabilized and is designed to withstand the toughest climates and the most demanding sporting application.

HOW ARE ^{GT}TURFWORKS PRODUCTS MADE?

^{GT}TURFWORKS products use high quality fibers which is lubricated with silicone and sewn into a rubberized plastic mat.

WHAT ARE THE ADVANTAGES OF USING ARTIFICIAL GRASS THAN REAL GRASS?

Artificial grass can be a better solution when the environment is particularly hostile to natural grass. Real grass lawns are not only expensive, but they require irrigation and weekly maintenance, such as: mowing, watering, fertilizing, thatching, weeding, edging, and chemical pesticides. For sporting purposes, artificial turf has the advantage of not giving players any rugburn as could happen with natural grass surfaces.

Its texture is not affected by climate and weather changes.

^{GT}TURFWORKS products are suitable for installation on many types of soil conditions, it can be removed at any point without causing any damage to the basic flooring, and extremely low maintenance.

HOW DO YOU COMPARE ^{GT}TURFWORKS PRODUCTS IN TERMS OF COST WITH NATURAL GRASS?

Considering the regular management of a natural grass to ensure its quality and longevity, most are expensive and time consuming. ^{GT}TURFWORKS products offer you a revolutionary surface without the costly and time consuming chores.

DOES ^{GT}TURFWORKS PRODUCTS FADE?

No. ^{GT}TURFWORKS products are assembled using commercial quality fibers with high UV protection against excessive wear, fading, and sun.

HOW LONG WILL ^{GT}TURFWORKS LAST? IS THERE A WARRANTY?

With basic customer care ^{GT}TURFWORKS products will last for many years. It has a life capacity longer than natural grass.

FREQUENTLY ASKED QUESTIONS

WHAT HAPPENS WHEN IT RAINS?

During manufacturing process, our grass is specially perforated with holes engineered to accommodate the normal drainage requirements of rain. The water simply drains through the small drainage holes into the ground. The sand and rubber infill will help to absorb and hold the water which will eventually drain through. During heavy rains some water will run off the top of the surface just as it would with natural grass or dirt.

DOES MOLD GROW IN GT TURFWORKS PRODUCTS?

Natural grass will support the growth of mold more than artificial grass.

DOES GT TURFWORKS PRODUCTS REQUIRE MAINTENANCE?

GT TURFWORKS product is as maintenance free as it gets. Once installed, just keep the leaves and debris off the surface. If you see any weeds, just spray or pull them, as you would with real grass. GT TURFWORKS products only need occasional watering to remove the dust.

ARE GT TURFWORKS PRODUCTS FLAMMABLE?

Artificial grass is less flammable than live natural grass and many times less flammable than dead natural grass. The sand and rubber infill also helps prevent a fire from spreading, and can often extinguish a fire.

CAN GT TURFWORKS PRODUCTS BE INSTALLED ON BOTH INDOOR AND OUTDOOR AREAS?

Yes. With our artificial grass, you can enhance your indoor or outdoor spaces and individualize your residential area. You can build your own putting green and grass lawn that comes as close to real grass.

CAN GT TURFWORKS PRODUCTS BE SCULPTURED AROUND WALKWAYS, POOLS, PLANTS OR TREES?

Yes, just like real grass it can be installed in such areas.

IN WHAT SIZE OR SHAPE CAN THE GT TURFWORKS PRODUCTS BE CONSTRUCTED?

With professional installation, just about any size or shape can be constructed.

ARE GT TURFWORKS PRODUCTS IMPORTED?

Yes. The production of our artificial grass comes from high quality standard and provides the most realistic looking and maintenance free residential artificial grass for both home-owners and commercial applications alike.
